**COMPOSITION**

Hydrochloric acid, surfactants, emulsifiers, corrosion inhibitors, water.

**PROFILE**

P-500 is a cleaning solution based on inorganic acid (hydrochloric acid) containing surfactants and inhibitors.

**INTENDED USE**

P-500 is a hydrochloric acid that can remove residues of lime, grout, plaster, rust, soot, oxidation, etc., with descaling and pickling action on absorbent building surfaces resistant to acids, such as cotto, earthenware, cinder, porcelain stoneware, red stoneware, etc...

**INSTRUCTIONS**

Shake well before use. Once you have established the required dilution for cleaning the surface, apply the solution and go over the surface with the single-brush floor cleaner fitted with suitable abrasive disks (approximately 1-2 minutes on 1 sqm) remove the residues immediately with a wet-dry vacuum cleaner. Finally rinse with water following the same procedure.

On very porous materials we recommend wetting the surfaces to be washed beforehand. Protect any surfaces that may come into contact and therefore be damaged by the acid product, e.g. wooden, copper-plated, galvanised surfaces etc.

**PROPERTIES**

- **DILUTION:** In all proportions, we recommend 1:9 with water.
- **YIELD:** With 10 ft. of previously diluted solution it is possible to wash approximately 1000 sqm.
- **STORAGE:** Closed in the original packaging, in a cool place, away from frost and UV rays, it retains its properties for at least one year.
- **PACKAGING:** 2 10-litre buckets

**CHARACTERISTICS**

- **APPEARANCE:** Liquid
- **COLOUR:** Turquoise
- **ODOUR:** Characteristic
- **SPECIFIC WEIGHT (20°C):** 1.066kg/l
- **PURE PROD. PH VALUE (20°C):** 0.6
- **ACTIVE INGREDIENTS:** 38%

**HEALTH**

- **Hazard statements:**
  - H314 Causes severe skin burns and eye damage.
  - H285 May cause respiratory irritation.

- **Precautionary statements:**
  - P264 Wear protective gloves and eye protection.
  - P304 + P340 IF INHALED: remove person to fresh air and keep comfortable for breathing.
  - P310 Immediately call a POISON CENTER or doctor...

- **Always run some test applications before applying it to the definitive surfaces.**
